Publish fast. Openly. Without restrictions.

GAIN CREDIT AND VISIBILITY FOR ALL YOUR RESEARCH

PUBLISH
Share all your findings, from traditional research articles to null results, small findings, case reports, data notes and more.

ENGAGE
Signed peer reviews and author responses are published alongside each article. You decide how to respond and whether to revise.

ACCELERATE
Your article is published in a professional layout within days. Formal peer review by invited experts takes place after publication.

Peer review is completely transparent to all involved, tyrannical reviewers are avoided... the speed is amazing... all the advantages of classical review models and electronic publishing, while avoiding their inherent disadvantages.
